Effects of Soya Bean Meal Feed Properties on Extrusion

Reviews

This publication is fantastic. We have read through and i am certain that i will planning to read yet again yet again down the road. You wont feel monotony at at any time of your respective time (that’s what catalogs are for concerning when you request me).

EFFECTS OF SOYA BEAN MEAL FEED PROPERTIES ON EXTRUSION

LAP Lambert Academic Publishing. Taschenbuch. Book Condition: Neu. 220x150x mm. Neuware - Extrusion processing of food materials has become an increasingly important manufacturing method, and its applications have broadened substantially in the past two decades. From the point of view of transport phenomena, extrusion processing can be thought of as a combination of several processes, including fluid flow, heat and mass transfer, mixing, shearing, particle size reduction, melting, texturizing, caramelising, plasticising, shaping, and forming. Depending upon the product, one or many of these processes will take place in an extruder. This book is a compilation or concise report on the research work done by researchers from the Harare Institute of Technology as a contribution on the optimization of extrusion process by determining the effects of feed properties on extrusion failures and implementing a solution. 116 pp. Englisch.
